Is the overall quality of teaching-learning process very good in your institution?

आपके संस्थान में शिक्षण-अधिगम प्रक्रिया की समग्र गुणवत्ता बहुत अच्छी है?

## **Suggestions for improving overall teaching-learning process**

- In the session 2020-2021 the offline classes didn't take place due to Covid-19 pandemic. But all of the teachers tried their best to provide us the study material online.
- The institute should often arrange counseling sessions for students about the career and future. The teachers should educate students about various options and exams, of which a student become eligible after graduation. For e.g IIT JAM after B.Sc.,CDS, CAT etc.
- Educational trips must be organized. Mentorship program should be organized for the students for further future guidance.
- Use LCD projector, ICT tools, conduct workshop with well planning and preparation and Take special classes for skills development
- Teacher should know about the individual differences between students. Teacher should motivate the students. Try to improve teaching skills, always be humble to the students who are not able to catch the things easily, always try to interact with students so they feel comfortable to ask you about any queries related to their studies or their life try to be like a mentor.
- There is need of more teaching staff. Provide more books in Library
